

Tectyl Press 105

LUBRICANT FOR METAL FORMING

| INTRODUCTION |

Tectyl Press 105 is a chlorinated drawing oil which has not a pigment or heavy metal. Tectyl Press 105 is highly respected in the difficult carbon and stainless steel forming industry.

Tectyl Press 105 is an unusual drawing compound, which enables deep drawing of carbon and stainless steel.

| APPLICATION |

- Materials to be applicated ; stainless steel, ferrous
- Application method ; spray, dipping

| FEATURES |

- Excellent lubricity and extreme pressure properties.
- The advantage of economy because of its low viscosity.
- Enables high-speed forming operation.

| SPECIFICATION |

Appearance	Reddish brown
Specific gravity (15/4°C)	1.1
Viscosity (40°C, cSt)	153
Flashing point (°C)	210
Corrosion Test	1a

- All data given in this Product Data Sheet are typical of this Product. It does not however constitute a specification. And, We reserve the right to modify products without prior notice.

| PACKAGING & SAFETY |

- Tank/Lorry, Tote, Drum(200LT), Pail(20LT)
- For your Safety, Refer to the Material Safety Data Sheet,
